

Impact of COVID-19 on Older Adults' Lifestyle and Healthcare

Guest Editors:

Dr. Cristina Gagliardi

Dr. Danilo Contiero

Dr. Barbara D'Amen

Message from the Guest Editors

The COVID-19 pandemic has significantly impacted all aspects of everyday life, in particular several issues related to healthy ageing. This special issue focused on “Advances in Socio-Economic Research on Ageing” research papers on the various aspects related to the COVID impact, such as:

Deadline for manuscript
submissions:
closed (31 January 2023)

1. Formal and informal caregiving relationship on the caring role and the relationship between caregiver and care recipient;
2. Relationship in the residential care home, in particular socialization among the residential patients and between the residential patients and their family members or parents who lived outside;
3. Life of the older people during the COVID
4. Perceptions, expectations and experience of older adults after the COVID restriction
5. Consequences of the isolation, due to the lockdown, and of the sedentary lifestyle and their impact on the older people
6. Physical activity intervention for elderly during lockdown, the evaluation of remote technology
7. Developing possible Physical Activity and Exercise guidelines for elderly people recovering from COVID
8. Older adults' adherence to physical activity interventions during lockdown

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
