submissions:

closed (1 July 2024)

Message from the Guest Editors

Sexual violence and domestic violence are huge issues, still mostly hidden from view, yet widespread among society. This Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)* aims at deepening all aspects linked to violence experienced by adolescents: both sexual violence perpetrated by a stranger or a family member, and witnessed or domestic violence within the walls of their home.

Papers should focus on the current state of knowledge, with the purpose of finding out, detecting, and analyzing these situations. New research papers, reviews, case reports and conference papers are welcome to this Special Issue. We will accept manuscripts from different disciplines including epidemiology, proposals of new approaches, experiences of violence intervention centers all over the world, and risk and health impact assessments, including physical and psychological aspects.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
