Message from the Guest Editors

Dear Colleagues,

We are organizing a Special Issue on “Dual Disorder Patients: Clinical and Therapeutic Aspects” in the *International Journal of Environmental Research and Public Health*. The venue is a peer-reviewed scientific journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to <http://www.mdpi.com/journal/ijerph>.

Dual Disorder is a term applied to people who have a Substance Use Disorder and another co-occurring mental illness. It is related to interacting neurobiological and environmental factors involved in behaviours of substance and non-substance associated disorders.

Even if it is clear that patients with Substance Use Disorders present frequent psychiatric comorbidity, researchers in this field remain insufficient to prove the existence of clear progression between substance abuse and other mental illnesses.

This Special Issue is open to any subject area related to the clinical and therapeutic aspects of Dual Disorder patients.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
