submissions:

**closed (31 July 2019)**

### Message from the Guest Editor

Dear Colleagues,

What role does *place* play in the relationship between environment and (public) health? Is it passive (a foundation? A backdrop?) or is it active (a moderator? A mediator? A determinant?). The papers in this Special Issue will explore these relationships across a range of places (North America, Europe, Central and East Asia, and Sub Saharan Africa), a range of spatial scales (global, national, regional, and local), and a range of environmental exposures (physical environment, built environment, and social/cultural/political environments), in order to provide *place* with pride of place.

Dr. Susan Elliott

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
