

Environment and Respiratory Health

Guest Editors:

Prof. Dr. Woo-Jin Kim

Department of Internal Medicine,
Kangwon National University,
Chuncheon 24341, Korea

Dr. Junghyun Kim

Division of Pulmonary and
Critical Care Medicine,
Department of Internal Medicine,
National Medical Center, Seoul,
Korea

Message from the Guest Editors

This Special Issue provides an opportunity to publish basic, epidemiological, and clinical research papers on environmental effects on respiratory health and environmental lung diseases. We welcome papers related to evidence of associations and/or mechanisms between environmental factors and respiratory diseases. We are also interested in scientific evidence that could support strategies to prevent environmental lung diseases. All manuscripts will be peer reviewed by experts in this field and would be due by 31 December 2021.

Deadline for manuscript
submissions:

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
