Deadline for manuscript  
submissions:

**closed (30 November 2020)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue invites papers focusing on the impact of environmental exposures on the epigenome. Studies that relate epigenetic changes to health outcomes are encouraged. Full-length research articles or brief communications reporting original research results from epidemiological, animal, or in vitro studies are welcome. Critical reviews (systematic reviews or meta-analyses) are also welcome.

We encourage prospective authors to submit a 350-word (maximum) abstract by 29 February 2020 for consideration and feedback. Authors whose abstracts are accepted will be invited to submit a full manuscript. Subject to the decision of the Special Issue editors, up to 5 manuscripts accepted through this process will receive a waiver of the Journal publication fee. In addition, authors may submit their paper through the typical journal submission process, and the usual journal processing fee will apply. All manuscripts will be subject to the Journal's peer review process.

Dr. Jaclyn Goodrich

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
