Message from the Guest Editors

Dear Colleagues,

Migration is a key challenge of the 21st century. Currently, 258 million migrants are living out of their country of birth. Migration creates challenges and opportunities. Many of those migrants are especially vulnerable—refugees, children, women, and disabled persons. Very little is known about the healthcare needs of these most vulnerable groups.

This Special issue focuses on the healthcare needs of these most vulnerable migrants. It will help to serve those migrants in need.

Dr. Alexandra Jablonka

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
