### Message from the Guest Editors

Dear Colleagues,

“You are what you eat.” We are sure each of you heard this as you were growing up and may even have passed it along to your children or young relatives. Although this adage has been around for a long time, it recognizes the critical role that diet has on health. As a health professional, you are well aware that healthy dietary intake during childhood is associated with current and future health, growth and development, and disease prevention.

Deadline for manuscript  
submissions:

**closed (30 November 2021)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
