Message from the Guest Editors

Dear Colleagues,

This Special Issue on ‘Enhancing the Quality of Care in Long-Term Care Settings’ is dedicated to publishing reports, which describe different ways that the quality of care delivered to older people living in long-term care settings can be enhanced. The aim is to give readers valuable insights into what works well when working towards enhancing the quality of care received by older people. The guest editors would like to invite original research, reviews, and narratives describing expert insights on the following topics:

- Methodologies used to enhance the quality of care;
- Evaluations of innovations implemented into long-term care;
- Sustaining successful initiatives beyond the short term;
- Addressing workforce-related challenges;
- Advance care planning in long-term care;
- Supporting and delivering end-of-life care.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
