Message from the Guest Editors

This Special Issue will focus on obtaining submissions related to neurotoxicant exposures and acute or chronic health outcomes. This could include mechanistic studies (blood biomarkers, brain imaging, cognitive and neuropsychiatric outcomes), and neurotoxicological outcomes in occupational and leisure activities. Genetic markers, biomarkers of exposure and disease as well as treatment development studies are welcome.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
