Message from the Guest Editor

Dear Colleagues,

Cardiovascular disease (CVD) remains the leading cause of death around the world. According to the European Cardiovascular Disease Statistics 2017, CVD caused 3.9 million deaths in Europe each year, which are more than half of all deaths across the European Region. Therefore, care for patients with cardiovascular disease is extremely important. Recent reports provided by researchers from around the world regarding advances in CVD care is important in the context of providing continuity of care. The most appropriate, best possible, evidence-based care. We invite you to show and publish your research for a wide audience.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
