Message from the Guest Editors

Dear Colleagues,

Tobacco in any form kills millions of people every year. Cigarette smoking causes 8 million deaths worldwide every year, of which 7 million related to active smoking and 1.2 million to passive smoking. In recent years, alternative forms of nicotine delivery, such as electronic cigarettes (e-cigarettes) and heated tobacco, have gained popularity, especially among young adults. It is estimated that 2% of EU citizens regularly use e-cigarettes.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
