Message from the Guest Editor

This special issue of International Journal of Environmental Research and Public Health (IJERPH) focuses on the current state of knowledge on the links between work and health (particularly where it pertains to mental health). New research papers, reviews, case reports, and conference papers are welcome to this issue. Manuscripts dealing with new approaches to intervention to prevent, treat, or improve outcomes pertaining to work and mental health are welcome. Along with manuscripts examining impact of occupational factors, including risk and protective factors of wellbeing, and those dealing with workplace health promotion and training, suicide prevention, workplace screening, implementation, and intervention development are also invited. Experimental, cross-sectional, and longitudinal explorative studies of mental health and wellbeing within occupational settings are also welcome.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
