Message from the Guest Editors

Dear Colleagues,

We are pleased to organize this Special Issue on the treatment of childhood and adolescent overweight and obesity on behalf of the *IJERPH*. It is open to any subject area and different types of research that may deepen the knowledge base on how to effectively treat overweight and obesity in children and adolescents. We especially welcome studies including:

- Associations between lifestyle behaviors in children or adolescents with overweight or obesity;
- Prevalence and determinants of lifestyle behaviors in children or adolescents with overweight or obesity;
- Developmental and implementation processes of lifestyle behavior change interventions to treat childhood and adolescent overweight and obesity;
- Process evaluations of lifestyle behavior change interventions in children and adolescents treated for overweight or obesity;
- Impact of lifestyle behavior change interventions in children and adolescents treated for overweight or obesity on lifestyle behaviors, weight-related outcomes, comorbidities and health-related quality of life.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
