submissions:

**closed (31 May 2022)**

### Message from the Guest Editor

Positive, engaged, sensitive parenting has been uniquely associated with adolescents' better emotional regulation, fewer conduct problems, and lower emotional distress. Positive parenting includes experiences shared among family members, expressed positive emotions, positive behaviors, expressed warmth, perceived closeness and cohesion, supportiveness, responsiveness, perceived acceptance, and parental attachment security. Specifically, parental attachment refers to an affectional bond with primary caregivers that develops in the early years of life (Bowlby, 1969), but it still continues to influence individual psychological adjustment during adolescence as demonstrated by the association between attachment security and the development of adolescent emotional and problem behaviors in adolescents. In addition, an extensive body of research highlights the links between attachment security in adolescents and their behavioral and psychosocial outcomes later in life. However, new contributions are needed.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
