Deadline for manuscript  
submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

Physiotherapy in women's health aims to improve health care for women. Although many people relate it only to pelvic dysfunctions, physiotherapy in women's health practice has changed over the years and has included different health conditions that women may suffer throughout their lives.

This Special Issue aims to have a broad focus on the impact of Physiotherapy in Women's Health for specific women health needs. We welcome original research studies, systematic reviews, meta-analyses, clinical practice guidelines, case reports, qualitative studies and clinical commentaries that promote the integration of evidence into theory, education and research. We also consider studies with innovative research methods and technologies.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
