### Message from the Collection Editor

Under the **Section “Children’s Health”** in the *IJERPH*, this Special Issue aims to collect a set of high-quality review papers that highlight the most recent advances in the field of children’s health. We kindly encourage all research groups covering relevant areas within the Section’s scope to contribute up-to-date, full-length comprehensive reviews, highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so. This Special Issue primarily publishes review papers by invitation, but will also publish reviews on topics of particular interest that do not overlap with current or recent Special Issues ([https://www.mdpi.com/journal/ijerph/sections/Children\\_Health](https://www.mdpi.com/journal/ijerph/sections/Children_Health))

Distinguished researchers from all over the world will be invited to contribute to this issue. Potential contributors/invited authors are kindly requested to submit a tentative title and a short abstract to our Editorial Office ([ijerph@mdpi.com](mailto:ijerph@mdpi.com)) for pre-evaluation. Please note that selected full papers will still be subjected to a thorough and rigorous peer-review. All papers will be published on an ongoing basis.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
