Message from the Guest Editor

This Special Issue of the *International Journal of Environmental Research and Public Health*, entitled “Suicide Prevention Strategies”, offers an opportunity to publish high-quality multi-disciplinary research. We welcome research related to suicide and suicide attempt with high intent epidemiology (rates, trends, patterns among countries, gender, age, and occupational group), research on indicators and surveillance initiatives (to account for the constellation of risk factors and the heterogeneity of data quality), and papers related to prevention strategies and interventions.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
