Message from the Guest Editors

Dear Colleagues,

The global crisis caused by the outbreak of a novel coronavirus and the associated coronavirus disease 2019 (COVID-19) has changed the working conditions for many. As a consequence of the COVID-19 pandemic and widespread social distancing policies, remote working has increased, and many organizations have started to use new digital applications. These changes have led to potential increases in workplace stress and anxiety.

The COVID-19 pandemic represents an unforeseen situation for many companies and workers. Prolonged remote work and having to learn and apply new ways of working and communicating challenged the old methods of working and forced workers around the world to take a digital leap. Socially isolated and digitally mediated work may have brought new and unseen challenges to companies and workers, which are now beginning to emerge.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
