# Message from the Guest Editor

Given the importance of diabetes, the International Journal of Environmental Research and Public Health (IJERPH) is launching a Special Issue entitled "New advances in diabetes" with the aim of gathering accurate and up-to-date scientific information on all aspects of diabetes. We are pleased to invite you and your co-workers to submit original research articles and review articles aimed at providing a comprehensive overview of the advances in the understanding and treatment of this disease.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
