

Special Issue

Editorial Board Members' Collection Series: Modeling Disease Risk and Outcomes

Message from the Guest Editors

We are pleased to announce this Collection titled, “Editorial Board Members' Collection Series: Modeling Disease Risk and Outcomes”. This Issue will be a collection of papers from researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between *IJERPH* and scholars in the field of modeling disease risk and outcomes. All papers will be fully open access upon publication after peer review.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
