

Special Issue

Food Safety and Nutrition: Focusing on the Last Contributions about Natural Food Additives, Ingredients and Flavourings

Message from the Guest Editors

On behalf of the *International Journal of Environmental Research and Public Health*, we are organizing a Special Issue on food safety and nutrition, focusing on the latest contributions on natural food additives, ingredients, and flavorings. The *International Journal of Environmental Research and Public Health* is a peer-reviewed scientific journal that publishes manuscripts in the interdisciplinary area of environmental health sciences and public health. As the relationship between health and food additives comes under increasing scrutiny, there is a growing desire for foods that use natural ingredients and additives rather than synthetic ones. The focus of this Special Issue is on legislative issues concerning natural food additives and ingredients, as well as the variety of natural food additives and ingredients available and their applications in multiple product sectors.

Guest Editors

Dr. António Raposo
Dr. Conrado Javier Carrascosa Iruzubieta
Dr. Dele Raheem
Dr. Fernando Ramos
Dr. Ariana Saraiva

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
