Geo-Information Technology and Its Applications

Guest Editors:

Prof. Dr. Weicheng Wu

Key Laboratory of Digital Land
and Resources, East China
University of Technology,
Nanchang 330013, China

Prof. Dr. Yalan Liu

Institute of Remote Sensing and
Digital Earth, Chinese Academy of
Sciences, North of 20A, Datun
Road, Chaoyang District, Beijing
100101, China

Prof. Dr. Mingxing Hu

Si Pailou Campus of Southeast
University, Nanjing 210096,
Jiangsu, China

Message from the Guest Editors

Geo-information technology has been playing a more and more important role in environmental monitoring, land resource quantification and mapping, natural hazard damage and risk assessment, urban planning, smart city development and other land use change monitoring and modeling. New advancements and innovations have been achieved especially with the emergence of big data mining and machine learning including deep learning technique. It is hence the objective of the International Conference on Geo-Information Technology and its Applications (ICGITA 2019) to provide a platform for worldwide experts in these fields to exchange and communicate their outcomes and experiences with each other and to promote the advancement of geo-information technology and its applications.

Deadline for manuscript
submissions:

closed (30 June 2021)

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Wolfgang Kainz

Cartography and Geographic
Information Science, Department
of Geography and Regional
Research, University of Vienna,
Universitätsstr. 7, A-1010 Vienna,
Austria

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, PubAg, dblp, Astrophysics Data System, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Remote Sensing*) / CiteScore - Q1 (Geography, Planning and Development)
