Dr. Jakub Lysek

The Department of Politics and European Studies, Faculty of Arts, Palacky University Olomouc, Křížkovského 12, 771 46 Olomouc, Czech Republic

Dr. Enzo Falco

Department DICAM, University of Trento, Via Mesiano 77, 38123m Trento, Italy

Deadline for manuscript submissions:

closed (1 July 2021)

Message from the Guest Editors

The active involvement of citizens in the decision-making process via geoparticipatory spatial tools is becoming a widespread research field among human geographers, behavioral geographers, GIScientists, urban planners, environmental psychologists, policy scientists, and many others. The main aim of the Special Issue is to analyze the state-of-the-art geoparticipatory tools for citizen participation in community decision-making processes and to suggest effective implementation of the geoparticipatory tools available for local administrations. This Special Issue aims to create a pool of good practices, as well as to critically evaluate the research in the area of GIS for spatial/political participation in the decision-making processes of local administrations. We invite all contributions that focus on using GIS in participatory decision-making processes in local administrations. Paper submissions may be focused regionally as well as at different geographical scales, preferably using spatial methods that overlap real-life deployments.

Editor-in-Chief

Prof. Dr. Wolfgang Kainz

Cartography and Geographic
Information Science, Department
of Geography and Regional
Research, University of Vienna,
Universitätsstr. 7, A-1010 Vienna,
Austria

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, PubAg, dblp, Astrophysics Data System, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Remote Sensing*) / CiteScore - Q1 (Geography, Planning and Development)
