Republic of Korea

Deadline for manuscript
submissions:

closed (20 December 2024)

Message from the Guest Editor

Dear Colleagues,

Viruses constitute an abundant, highly diverse and economically significant group of pathogens affecting plants, animals and humans. Despite their minuscule size, viruses initiate extensive pathological changes or modifications in various host cells to ensure their survival.

The forthcoming Special Issue will publish a collection of the latest original research articles, short communications and reviews concerning recent progress in virus–host interaction research and therapeutic approaches for infectious diseases. The Special Issue aims to furnish a comprehensive platform for the exchange of knowledge and contributions, enriching the evolving landscape in this field.

Dr. Jung-Hyun Lee

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
