2. Department of Neurosurgery and Brain Repair, University of South Florida, Tampa, FL 33612, USA

Deadline for manuscript submissions:

31 March 2025

Message from the Guest Editor

In this Special Issue, we invite studies that explore the microbiome's connections with various age-related diseases, including cardiovascular disease, inflammatory bowel disease, obesity, diabetes, musculoskeletal disorders, Alzheimer's, and dementia. Additionally, we seek to address the potential of restoring microorganisms through lifestyle and dietary interventions to enhance life expectancy and promote healthy aging. This collection of studies aims to uncover the mechanisms by which the microbiome influences aging and to identify strategies to improve health outcomes in older populations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
