closed (31 March 2023)

Message from the Guest Editors

Dear Colleagues,

China has launched its exciting contribution to neuroscience, the China Brain Project (CBP). The amount of neuroscience research has been increasing rapidly. The Chinese Neuroscience Society (CNS) is a non-profit non-governmental organization with the status of an independent legal entity, and is supported by neuroscientists from national scientific and research units, universities, and hospitals alike. The 15th Annual Meeting of the Chinese Neuroscience Society (CNS 2022) will be held from Nov. 26 to 29, 2022, in Suzhou, just half an hour away from Shanghai, China. In this Special Issue, we will publish papers from attendees of the meetings, including, but not limited to, the following topics:

- Cellular/molecular neuroscience
- Systems/circuits
- Neurodevelopment/neurodegeneration
- Computational neuroscience
- Neurotechnologies
- Neurological diseases
- Neuroimaging
- Drug discovery

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
