Deadline for manuscript  
submissions:

**closed (31 March 2024)**

### Message from the Guest Editor

Dear Colleagues,

Due to the rarity and heterogeneity of sarcoma, investigation into molecular targets and new treatments has been particularly challenging. Although intensive chemotherapy and the establishment of surgical procedures have improved the outcomes of patients with sarcomas, the curative rate of recurrent and metastatic sarcomas remains unsatisfactory. Recent basic science research has revealed some of the mechanisms of the progression and metastasis of malignancies, including proliferation, apoptosis, angiogenesis, tumor microenvironment, migration, invasion, and the regulation of antitumor immune systems. On the basis of these basic studies, new anticancer drugs have been developed, and the efficacies and safety of the new drugs have been assessed by clinical trials. This Special Issue aims to bring together the highest-quality original/review articles on basic research for bone and soft tissue tumors.

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
