Innsbruck, Austria

Deadline for manuscript
submissions:

closed (30 December 2024)

Message from the Guest Editor

This special issue, “Molecular Advances in Mental Disorder” delves into the latest scientific breakthroughs that are reshaping our understanding of mental health conditions at the molecular level. The issue will include a wide range of topics- genetic and epigenetic insights, neurotransmitter systems, biomarker for early diagnosis, molecular therapeutics, neuroinflammation and immune response and finally neural circuit and synaptic plasticity. The convergence of molecular biology and mental health research holds promise for transforming the diagnosis and treatment of mental disorders. This special issue underscores the importance of interdisciplinary collaboration and continued investment in molecular research to unravel the complexities of mental health conditions. By advancing our molecular understanding, we move closer to a future where mental disorders can be managed with greater precision and efficacy. “Molecular Advances in Mental Disorders” offers a comprehensive overview of the state-of-the-art research in this rapidly evolving field.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.
Conocimiento s/n, 18100 Armilla,
Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
