### Message from the Guest Editors

This Special Issue is related to 3<sup>rd</sup> International Symposium on Phytochemicals in Medicine and Food (3-ISPMF), which will be held at the Kunming University of Science and Technology, 26–29 August, 2018. 3-ISPMF is sponsored by the Phytochemical Society of Europe (PSE), International Society for Chinese Medicine (ISCM), and the Phytochemical Society of Europe (PSA). This Special Issue seeks updated and new knowledge on the phytochemicals in medicine and food, and will focus on the phytochemicals in medicine and food. Topics will include the following aspects:

- Natural products for the prevention and therapy of modern diseases
- Mechanism of phytochemicals for therapy and chemoprevention of modern diseases
- Importance of natural phytochemicals in medicine and food
- QSAR and modeling for natural drugs design
- Natural antioxidants and human health
- New strategy of using natural products for managing diseases
- Pharmacokinetics and biotransformation of phytochemicals

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
