Dear Colleagues,

The interaction between light and optical materials are widely studied, since advanced optical materials have shown outstanding properties. Our Special Issue will include various types of not only preparation of optical materials but also applications of optical materials.

This Special Issue will provide a range of original contributions detailing the advanced optical materials from materials to applications- Plasmonic Materials- SERS Substrate- Fluorescence Materials- Carbon Materials - Meta materials- Advanced optical materials for bio, energy, LED and so on.

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
