Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editor

Dear Colleagues,

Nanomedicine is a new interdisciplinary branch of science enabling the development of novel nano-systems for therapy and diagnosis. New advancements in the development of novel nanocarriers and/or new diagnostic tools in the near future are envisaged due to the strong engagement of several groups around the world. The publication of original research articles and comprehensive reviews will foster the scientific progress in emerging areas like immune-nanomedicine, nano-fluidic diagnostic tools, polymeric and hybrid NPs, and CAR-T nanotechnologies, among others. This Special Issue will enable further study into the molecular bases of such technologies and the future applications of such new nano-tools in clinical praxis.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
