Medicine, Shimane University  
Faculty of Medicine, 89-1 Enya  
Cho, Izumo 693-8501, Japan

Deadline for manuscript  
submissions:

**20 January 2025**

### Message from the Guest Editor

Dear Colleagues,

Stem cell therapy has revolutionized the field of medicine over the past few decades. Stem cells have been proven to be invaluable in the treatment of numerous diseases affecting various organs in the human body. The list of therapeutic applications of stem cells in clinical practice continues to expand steadily over the years. At a molecular level, there are many parallels among the different forms of neurodegenerative diseases. Unfortunately, among the current available treatment options, neither pharmacological nor neurosurgical ones are efficient in arresting the progression of the neurodegenerative processes. Stem cell therapy, on the other hand, enables regeneration of neural tissue, which ameliorates neurodegeneration occurring at different levels of neuronal circuitry.

We invite you to submit novel research about molecular and cellular mechanisms involving stem cells in neurodegenerative diseases.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

Department of  
Odontostomatologic and  
Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of  
Medicine, Università Politecnica  
delle Marche, Via Ranieri 65,  
60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
