

## 5-ISPMF Special Issue: Phytochemicals in Cardiovascular and Metabolic Diseases-Molecular Pharmacology and Therapeutic Potential

Guest Editors:

**Prof. Dr. Suowen Xu**

**Prof. Dr. Peter J. Little**

**Prof. Dr. Jianping Weng**

Deadline for manuscript  
submissions:  
**closed (31 January 2022)**

### Message from the Guest Editors

Phytochemicals including those from natural sources, such as food supplements, spices, herbal medicines, marine products, and other products represent an important source of drug discovery. In particular, the emergence of high content screening and high throughput screening from drug libraries consisting of natural product libraries or bioactive naturally-occurring compound libraries has enabled the discovery of new drug candidates. We are guest editing this Special Issue to celebrate the 5th International Symposium on Phytochemicals in Medicine and Food (5-ISPMF) in Nanchang, China (2021.8.25-2021.8.30). All submissions related to the below topics from scientists working on phytochemicals are welcome.

### Suggested Topics:

New therapeutic targets in cardiovascular and metabolic diseases

Natural product-based drug discovery in combating cardiometabolic diseases

Role of phytochemicals in cell metabolism

Pharmacological actions and therapeutic potential of plant-derived compounds/drugs

etc.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
