Università degli Studi di Napoli
Federico II, Naples, Italy

Deadline for manuscript
submissions:

closed (31 August 2023)

Message from the Guest Editor

Dear Colleagues,

Oncological research has focused on finding innovative therapies that increase the specificity of the treatment and reduce their drawbacks. New therapeutic approaches for cancer treatment, currently under evaluation in many clinical trials worldwide, include but are not limited to molecules targeting the nucleolus, natural antioxidants and phytochemicals in combination with common chemotherapeutic drugs, expression of genes triggering apoptosis, tumor suppressors, targeted silencing mediated by siRNAs, and the nanodelivery of chemotherapeutics. The combination of new and conventional approaches allows oncologists to select the best and most personalized therapy for cancer treatment.

This Special Issue, led by Dr. Giulia Russo with the assistance of our Topical Advisory Panel Members and the GE's assistant editor Dr. Annalisa Pecoraro (Department of Pharmacy, University of Naples Federico II, 80131 Napoli, Italy), will document studies on the molecular mechanism underlying tumorigenesis and on innovative strategies for cancer treatment.

Dr. Giulia Russo

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
