

## New Insights in Translational Bioinformatics: Second Edition

Guest Editor:

**Dr. Camelia Quek**

Faculty of Medicine and Health,  
The University of Sydney, Sydney,  
NSW 2006, Australia

Deadline for manuscript  
submissions:

**31 January 2025**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue is a continuation of our previous one, entitled "New Insights in Translational Bioinformatics".

Translational bioinformatics is an emerging field that focusses on providing the efficient translation of basic science (molecular, genetic, and cellular) and clinical data into clinical practice. As a multidisciplinary field of science, translational bioinformatics combines biology, computer science, data engineering, mathematics, statistics, and medicine to analyse and interpret the molecular basis of disease that has strong implications in clinical products or human health. In this Special Issue, manuscripts focusing on topics including, but not limited to, single-cell sequencing, spatial imaging, machine learning, artificial intelligence, next-generation sequencing for personalised medicine and biomarkers, rare and common variants of disease, drug discovery, system biology, pharmacogenomics, biomedical data mining, and data visualisation are invited. Original research articles, reviews, opinions/commentaries, perspectives, and short communications are welcome to be submitted to this Special Issue.

Dr. Camelia Quek

*Guest Editor*

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

Department of  
Odontostomatologic and  
Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of  
Medicine, Università Politecnica  
delle Marche, Via Ranieri 65,  
60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
