Lipid Droplet Proteins Function and Metabolism

Guest Editor:

Dr. Vitor Teixeira

Yeast Signalling Networks Group, i3s—Instituto de Investigação e Inovação em Saúde, Universidade do Port, Porto, Portugal

Deadline for manuscript submissions:

20 December 2024

Message from the Guest Editor

Dear Colleagues,

We are excited to announce a forthcoming Special Issue, titled "Lipid Droplet Proteins Function and Metabolism", which is dedicated to the fascinating and rapidly evolving field of lipid droplet (LD) protein function and metabolism. Once thought of as passive fat storage organelles, these organelles are now recognized as dynamic hubs involved in numerous cellular processes, making them a topic of immense scientific interest that has gained momentum in the past decades.

This Special Issue aims to bring together cutting-edge research, insights, and discoveries related to LD proteins and their critical roles in cellular metabolism, signaling, and disease. It will provide a platform for researchers to share their novel findings on protein functions within LD metabolism, interactions, and the metabolic implications, expanding our understanding of LD biology.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
