# **Cognitive Impairment in Neurological Diseases**

Guest Editors:

### Dr. Vasileios Papaliagkas

Associate Professor of Physiology, Department of Biomedical Sciences, School of Health Sciences, International Hellenic University, 57400 Thessaloniki, Greece

### Dr. Julián Benito-León

 Department of Neurology, University Hospital "12 de Octubre", 28041 Madrid, Spain
Centro de Investigación Biomédica en Red sobre Enfermedades Neurodegenerativas (CIBERNED), 28029 Madrid, Spain
Department of Medicine, Complutense University, 28040 Madrid, Spain

Deadline for manuscript submissions: closed (20 August 2023)

## Message from the Guest Editors

Cognitive impairment is a commonly observed symptom of neurodegenerative and other neurological diseases. The majority of patients with neurological diseases such as Alzheimer's disease, Parkinson's disease, epilepsy, multiple sclerosis, stroke and head injury develop cognitive impairment, often early during their disease course, which may become more severe with disease progression.

The scope of this Special Issue is to provide some insight on recent developments and to further present some comprehensive reviews on specific aspects of cognitive impairment. In particular, presenting and examining the patterns of cognitive impairment observed in several neurological diseases, as well as their molecular biology and pathophysiology and methods for accurate diagnoses of cognitive impairment such as neuropsychometric tests, blood tests, neuroimaging and clinical neurophysiology techniques are of major interest. We welcome contributions in the form of original research articles, reviews and communications.

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
