This Special Issue, entitled "Natural Products: Antioxidants and Neuroprotection", will cover a selection of recent research topics and current review articles in the field of active compounds in oxidative stress-related disorders. Additionally, focus should be given to the antioxidant and neuroprotective effect of extracts and bioactive compounds. Importantly, the exact active ingredient of natural origin extract must be reported in the submitted research manuscript since papers describing the effects of mixed extraction from natural origin are not in the scope of the journal. Experimental papers and up-to-date review articles are welcome.

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
