Advances in the Molecular Mechanisms of Abscisic Acid and Gibberellins Functions in Plants 3.0

Guest Editor:

Prof. Dr. Víctor Ouesada

Instituto de Bioingeniería, Universidad Miguel Hernandez de Elche, 3202 Elche, Spain

Deadline for manuscript submissions:

closed (31 May 2023)

Message from the Guest Editor

This Special Issue continues from our previous Special Issue, "Advances in the Molecular Mechanisms of Abscisic Acid and Gibberellins Functions in Plants".

This Special issue will focus on the most recent advances in ABA's and GA's functions in the regulation of plant growth and development as well as in their response to abiotic stress. The submission of papers reporting on ABA and GA crosstalk, as well as the integration of GA and ABA action with other plant hormones and/or environmental cues, are especially encouraged. Notwithstanding, contributions on other related topics aimed at developing a better understanding of the molecular mechanisms of ABA and/or GA action in plants are also welcomed, including reviews and original research articles.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
