Recent Research in Gut Microbiota–Gut–Brain Axis

Guest Editor:

Dr. Ying Han

National Institute on Drug
Dependence and Beijing Key
Laboratory of Drug Dependence,
Peking University, Beijing 100191,
China

Deadline for manuscript
submissions:

closed (20 April 2026)

Message from the Guest Editor

This Special Issue is aimed at publishing high-quality pre-clinical and clinical research exploring the compositional and functional (e.g., metabolite) changes in gut microbiota that are associated with the development of neuropsychiatric disorders, and investigating the novel molecular and cellular mediators for signaling across the microbiota–gut–brain axis in health and disease. A variety of formats of publications, including original research articles, reviews, meta-analyses, and case reports, are welcome.

Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
