Sciences, University of Padova,  
Viale Giuseppe Colombo, 3,  
35131 Padova, Italy

**Prof. Dr. Adriano Piatelli**

School of Dentistry, Saint  
Camillus International University  
of Health and Medical Sciences,  
Via di Sant'Alessandro 8, 00131  
Rome, Italy

**Prof. Giovanna Iezzi**

Department of Medical, Oral and  
Biotechnological Sciences,  
University of Chieti-Pescara,  
66100 Chieti, Italy

Deadline for manuscript  
submissions:

**closed (31 May 2018)**

### Message from the Guest Editors

Dear Colleagues,

Adipose tissue is a complex organ and in this last years it has received great attention thanks to its high stem cell content: Adipose Stem Cells (ASC).

Ideally, a stem cell for regenerative medicinal applications should meet the following set of criteria: (i) it should be found in abundant quantities (millions to billions of cells); (ii) it can be collected and harvested by a minimally invasive procedure; (iii) it can be differentiated along multiple cell lineage pathways in a reproducible manner; (iv) it can be safely and effectively transplanted to either an autologous or allogeneic host.

The aim of the present special issue is

- 1) characterisation of physiology of ASC
- 2) characterisation of secretoma activity of ASC
- 3) defining on of transcriptional and non-transcriptional events related to their commitment
- 4) application of ASC as tool to test novel

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
