Deadline for manuscript  
submissions:

**closed (30 May 2024)**

### Message from the Guest Editor

Dear Colleagues,

Systemic Lupus Erythematosus (SLE) is a clinical and immunological heterogeneous disease that is associated with varying manifestations and treatment response and prognosis. Patient stratification to enhance treatment efficacy and reduce medication related toxicities is a major developmental goal. This issue targets a broad range of topics that are relevant for personalized medicine in SLE. Review and original articles on the following list of topics that are related to patient stratification to receive tailored therapies are welcome. Articles are expected to highlight the advances in laboratory and imaging techniques instead of purely clinical perspectives. Topics include, but not limited, the following.

1. Imaging advances, artificial intelligence and telemedicine for the diagnosis and evaluation of SLE
2. Molecular profiling in SLE (genomics, proteomics, metabolomics and biomarkers)
3. Cellular and molecular therapies in SLE (eg. mesenchymal cell, stem cell transplantation, CAR-T cell therapies)

Prof. Dr. Chi Chiu Mok

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
