**Prof. Dr. Beatriz Martín-
Fernández**

Department of Molecular Biology,
Faculty of Biology, Universidad
de León, Campus de Vegazana
s/n, 24071 León, Spain

Deadline for manuscript
submissions:
closed (30 March 2023)

Message from the Guest Editors

Cardiovascular disease and cancer are the leading causes of death. Factors that can reduce occurrence of these diseases could contribute to important improvements in longevity. While oxidative stress promotes aging and related chronic diseases, a diet enriched in fruits, vegetables, and processed products is known to be protective against oxidative stress, reducing the incidences of chronic diseases. The polyphenols in the diet are the most powerful natural antioxidants. They reduce the level of oxygen free radicals and therefore increase the bioavailability of nitric oxide and in turn an increase in endothelium-dependent vasodilation, with, the improvement of blood perfusion to organs, and the prevention of chronic diseases.

This Special Issue will include a selection of original articles and reviews aimed at expanding our awareness of the progress in the knowledge of bioactive molecules from food acting as antioxidants, reducing oxidative stress and oxidant enzymes, and providing protection from deleterious reactive oxygen species.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
