

Disorders of Bone Metabolism

Guest Editor:

Dr. Agostino Gaudio

Department of Clinical and
Experimental Medicine,
University of Catania, Policlinico
"G. Rodolico", Via S. Sofia 78,
95123 Catania, Italy

Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editor

Bone metabolism disorders include common clinical conditions such as osteoporosis, osteomalacia and primary hyperparathyroidism as well as rare conditions such as Paget's disease, fibrous dysplasia, tumour-induced osteomalacia, osteogenesis imperfecta and several sclerosing bone diseases.

The identification of mechanisms underlying the pathophysiology of metabolic bone diseases continues to be an area of significant research efforts, attracting scientists from different fields.

Therefore, this Special Issue invites the submission of research and review papers targeting the gamut of methodological and scientific innovation in this field. Of specific interest to this Special Issue are papers focused on the discovery of novel drug targets, signalling pathways involved in the pathogenesis of rare metabolic bone diseases and secondary forms of osteoporosis.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology,
Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.
Conocimiento s/n, 18100 Armilla,
Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
