submissions:

closed (31 July 2023)

Message from the Guest Editors

This Special Issue, “Connexins multifaceted aspects in homeostasis and disease”, aims to collect original research manuscripts, short communications, and reviews on the latest progress uncovering mechanisms and strategies for connexin targeting in both channel-dependent and -independent functions. Indeed, a detailed analysis of the pathophysiology of Connexin could represent a strategic link in the growing urgency to develop a molecular signature towards personalized medicine.

Keywords:

- Connexin
- gap junction
- hemichannels
- intercellular communication
- signaling
- homeostasis
- imaging
- animal model
- inflammation
- oxidative stress

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
