

an Open Access Journal by MDPI

# Dry Eye: Molecular Mechanisms, Inflammation Biology and Novel Molecular Targets

Guest Editors:

#### Dr. Cintia S. De Paiva

Department of Ophthalmology, Baylor College of Medicine, Houston, TX, USA

# Prof. Dr. Stephen C. Pflugfelder

Cullen Eye Institute, Houston, TX, USA

Deadline for manuscript submissions:

closed (31 January 2023)

## **Message from the Guest Editors**

Dry eye disease is a multifactorial disease where inflammation plays a key role. Dry eye affects millions of people worldwide, and is one of the most common reasons that people seek eye care. Clinically, patients often complain of sandy sensation, dry eye, ocular discomfort and pain, and loss of functional vision. Although our understanding of the pathological mechanisms has improved in the past 20 years, there is still much to discover about how inflammation causes/perpetuates dry eye disease.

In this Special Issue of *IJMS*, we are seeking articles that provide new insights into the underlying mechanisms of dry eye disease, including molecular and cellular mechanisms involved in the initiation and perpetuation of inflammation, new diagnostic tools/biomarkers, and new therapies and treatment options. We invite the submission of both clinical and pre-clinical studies with an emphasis on molecular biology; animal models of disease are encouraged.

#### **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

### **Message from the Editor-in-Chief**

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
