

Electron and Photon Interactions with Bio(Related) Molecules

Guest Editor:

**Prof. Dr. Filipe Ferreira da
Silva**

Atomic and Molecular Collisions
Laboratory, CEFITEC,
Department of Physics,
Universidade NOVA de Lisboa,
Caparica, Portugal

Deadline for manuscript
submissions:

closed (31 May 2022)

Message from the Guest Editor

Electron and photon interactions play a vital importance in biological processes, from the origin of living systems to complex biological processes. Medical applications, namely diagnostic and therapeutic processes, are also based on electron (low and high energy) and photon interactions with biological tissues. Apart from these applications, chemical and pharmaceutical applications centered on molecular manipulation and drug design have attracted special attention from scientists in terms of using electrons and photons as a tool in chemical processing.

The aim of this Special Issue is to combine the most recent and outstanding studies on electron and photon interactions with bio(related) molecules. The association of gas, liquid, and condensed phases with quantum chemical and dynamical studies is aimed at bringing new insights and opening new research pathways, bringing together science complementarities.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
