# Advanced Research on Macrophages in Human Health and Disease

Guest Editor:

## Prof. Dr. María Martínez-Esparza

Department of Biochemistry and Molecular Biology B and Immunology, Faculty of Medicine, University of Murcia, Health Science Campus, El Palmar, E-30120 Murcia, Spain

Deadline for manuscript submissions:

20 October 2024

## **Message from the Guest Editor**

In this Special Issue of *IJMS*, we will focus on the physiological functions of human macrophages developed under healthy conditions at the molecular level, the mechanisms involved in disease establishment and/or progression, and how some of these mechanisms could be exploited therapeutically. We will consider submissions of original research reports, reviews, and methodology articles.

### **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

## **Message from the Editor-in-Chief**

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
