Molecular Physiopathology of  
Obesity", 06204 Nice, France

Deadline for manuscript  
submissions:

**closed (31 July 2022)**

### Message from the Guest Editor

Insulin resistance (IR) is defined as the impaired intracellular signaling of endogenous and exogenous insulin. IR is a major key player in those metabolic derangements that characterize pathological conditions (e.g., diabetes and metabolic syndrome). Adipocyte and adipose tissue dysfunction belong to the primary defects in obesity and may link obesity to several health problems, including increased risk of insulin resistance, type 2 diabetes, and fatty liver disease.

This Special Issue focuses on the study of the mechanisms of insulin resistance and adipose tissue dysfunction in obesity and type 2 diabetes. Potential topics include but are not limited to decipher the cellular and molecular mechanisms involved in insulin resistance, and the pathophysiological mechanisms connecting adipose tissue dysfunction to the development of insulin resistance, type 2 diabetes, or fatty liver. We warmly welcome original papers and reviews on this widely discussed topic.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
